Academic projects

Occupational transitions from the perspective of job seekers and recruiters

with *Daniel Kopp, Rafael Lalive, Michael Siegenthaler*

in progress

- We analyse the factors on both the firms' and the workers' side of the Swiss labour market that influence workers' possibilities to change occupations.
- We use a unique combination of online click data from recruiters and jobseekers on job-room.ch matched with administrative data from the Swiss unemployment register (AVAM).

Firm-level labour market power

with *Ihsaan Bassier, Alan Manning*

in progress

Research reports

Die Schweizer Selbständigerwerbenden im Covid19-Lockdown.
